EN 16005

ANSI 156.19

UL 325

Let's make it better together

Motorized hinge & gate closer

For pedestrian gates

MAGNUS is a motorized gate closer and hinge in one, designed for the automation of pedestrian gates. The brushless and reversible motor is insensitive to unpredictable pedestrian behaviour, and operates in low-energy mode. The settings and access control can be configured via an intuitive app. Includes lower hinge and compact connection box.
